Look through me because I am transparent  
Her to know me but why even know yourself  
I'm beginning to need all that I can't have  
I'm succeeding to speak like I'm fucking mad

Looking at the autumn shade  
You am I and I am great  
Looking at the autumn shade, oh yeah

Look through me because I am transparent  
Her to know me but why even know yourself  
I'm beginning to need all that I can't have  
I'm succeeding to speak like I'm fucking mad

Looking at the autumn shade  
You am I and I am great  
Looking at the autumn shade, oh yeah

Oh....
