Down in there left by the side of the railway  
Day goes by into the night, I was thinking

And my love is true  
And my love is right  
And my love is true  
True as the night, oh

Hear the sound over the trees, there's a river  
I don't know where to begin or to end it

And my love is true  
And my love is right  
And my love is true  
True as the night, oh

I stand alone inside me  
The things you've told didn't harm me  
Yeah, we all move on  
Yeah, we all move slow

I stand alone inside me  
The things you've told didn't harm me  
Yeah, we all move on  
Yeah, we all move slow
