Been takin' care of yourself.
You look good,
You look good, you look good.
Been takin' care of yourself.
Stopped long ago,
And it shows, and it shows.

I don't know you anymore,
It's been too long.
Let's go back,
All, all the way back
To where everything starts.

Cause some things never leave
Some things never leave this heart, heart
Cause some things never leave
Some things never leave this heart, heart

Are you here to stay?
Laid back and are you here to stay?
Couldn't handle it if you went away,
Couldn't handle it if you went away.

Are you here to stay?
Gotta know right now, are you here to stay?
Couldn't handle it if you went away,
Couldn't handle it if you went away.

I don't know you anymore,
It's been too long.
Let's go back,
All, all the way back
To where everything starts.

Cause some things never leave
Some things never leave this heart, heart
Some things never leave
Some things never leave this heart, heart
