Norum, John
"Eternal Flame"

There was a small light shape looking down at me
She kept on asking "where do you wanna be?"
I thought about it and I told her to wait
She said "it's okay, but don't wait too long"
I cried "what if I can't make up my mind?"

She said "into the fire you go
Into eternal flames
Into the fire
Into the eternal flames"

Suddenly, there was a big black shape
It came to me and said "come on let's go"
I said "wait a minute you can't do this to me"
He looked back and said "oh, too late"
I've waited to long and I'm dying

Into the fire I go
Into the eternal flame
Into the fire
Into the eternal flame

[Guitar solo]

I am dreaming
All of the emotion is gone
And I have to go

into the eternal flame
Into the fire I go
Into eternal flame
Into the fire
Into eternal flame
Into the fire
Into eternal flame
