Ahhh Turn your head around and see the light shining  
bright  
Ahhh You Draw it unto you all that you think and do it's  
the Law

What goes up comes down and 'round  
It all comes back to you  
What's in is out  
It's me and you  
Freedom is my truth

Ahhh I saw you laugh at me and now the jokes on you  
It feels alright  
How could I have sympathized I internalized, I was  
confused

What goes up comes down and 'round  
It all comes back to you  
What's in is out  
It's me and you  
Freedom is my truth

Ahhh look at your reflection  
Is there someone there?  
What is your sign?

You're not a face in the crowd  
I see the lines on your face  
Every time you come around  
Disappear with no trace

What goes up comes down and 'round  
It all comes back to you  
What's in is out  
It's me and you  
Freedom is my truth
