"Never No Never"

Visit "[Never No Never](#)" on MotoLyrics.com

I know it never crossed your mind
That you'd want to want me all the time
The chance has come to tear down those walls
The pain the past has chained us to

Never no never that's what she said
Never not ever oh
Never not ever that's what she said
Never not ever oh

I know we shared a point of view
To answer no questions was the rule
And holding back our feelings kept us safe
Well if you knew I wanted you
Would you want me too?

Never no never that's what she said
Never not ever oh
Never not ever that's what she said
Never not ever oh
Never not ever that's what she said
Never not ever
Never no never no never no never no never
