[Verse 1]

Open up my eyes,
Saving what's been broken,
Wasting all this time,
Now I know you'll never see this side of you that I know
It's been killing me for too long,
It's such a long way down from here.

[Chorus]

All this time I've waited,
Never seemed to change,
You're mine, I'm pleading!
Do not be afraid,
Has all our time been wasted?

[Verse 2]

Sinking with each step,
Scared of what might be next,
Forming in this game we've played for so long.
My instincts disappear,
The only voice I hear
Is telling me to run away from here. (Chorus)

[Bridge]

No one left to blame,
Don't shut me out.

[Verse 3]

Don't shut me out,
And think it'll be okay,
I'll take this knife and bury it today (Chorus, Bridge)
