

Not Long After "Times Forever Ours"

Visit "[Times Forever Ours](#)" on MotoLyrics.com

Its over.
I never thought you leave
You look so good
By my side the perfect girl for me
But are you gone?
And is it really true?
Can it be when all that i think about is you?
Memories are better times gone by
In my room and underneathe the stars
In your eyes
And always in my heart
Memories are times forever ours
(times forever ours)
I know its better off this way
At least for now we though its
At in time you'll fade away
Sometimes love can be so hard
But if not we had a plan for you we wont get far
Memories are better times gone by
In my room and underneathe the stars
In your eyes
Your always in my heart
Memories are times forever ours
(times forever ours)
Not perfectly
Your not there with me
God sent me angel but gave me a wings
So hard to forget
So much to regret
Not over you yet..
Memories are better times gone by
In my room and underneathe the stars
In your eyes
Your always in my heart
Memories are times forever ours
(times forever ours)
Times forever ours.....
