Chemicals will hit you  
Chemicals will knock you down  
Is it over cause you  
You feel no pain  
Throwing me around  
You attack my head  
With numbers  
You attack my room  
With things of glass  
You attack my neighbors  
'Till you find someone  
Who's cleaning up the mess  
You are no good  
You are no good  
'Cause I know you can't sleep  
'Till you know your overbearance  
Makes me creep  
You are no good  
You are no good  
'Cause I know you can't sleep  
'Till you know your overbearance  
Makes me creep
