

Notwist, The "Gravity"

Visit "[Gravity](#)" on MotoLyrics.com

I hear it's colder where we live now
The same world but better somewhere else
I see the planets spinning faster
Or is my body too slow
I don't know, I don't know
Don't wanna be somewhere else

Oh, gravity won't get me
Oh, gravity won't get me
Oh, gravity won't get me
Oh, gravity won't get me

I hear we live with what we run from
The same world but better somewhere else
I see the planets spinning faster
Or is my body too slow
I don't know, I don't know
Don't wanna be somewhere else

Bring in the savage
Bring in the loud
And fill our house with all the homey astronauts
Bring in the trouble
It's where we live
Up on the roof I'll pray for love and disbelief (x2)
