Have you ever gone through
Your gates of blue?
There your heart sees more
Before it couldn't be sure

That's a route to your own land
Please, come with me
And even if the daylight dies
We'll find there the brightest insights

(Our) Bodies made of air won't fail
As we fly an unseen within
Away from the old plane,
The chance will be given again
Find it within, forgotten again:
The dreaming air is near
The dreaming air is here

Can you feel the dreams air
Touching your steel?
Mountains, all memories
Higher and closer we see

The sun is still waiting
Above the clouds
All the worries fall down there,
All is possible, then we receive

(Our) Bodies made of air won't fail
As we fly an unseen within
Away from the old plane,
The chance will be given again
Find it within, forgotten again:
The dreaming air is near
The dreaming air is here

The dreaming air is here!!
