"Ready!"

Visit "[Ready!](#)" on MotoLyrics.com

Let's get out of the bitter now
By sensing gentle winds
Gray history's old sound
Cast away and spread your wings

Fly above the earth tonight
With your highest open smile

Jump into the sweetness
Drift into the depths of light
Please, find your inner dreamer
Feel all the reasons why

We are here tonight to stay
The magic in our ways

This is more than summer dreams
Yes, you brought the sun,
You brought the seeds
Soon we'll see
Our fields growing
To be more than we need
This is more than summer dreams
Yes, you brought the sun,
You brought the seeds
Soon we will see. Soon you,
Soon you will see

I've always been a dreamer
Bitter years blew it away
Through our hearts today
Breathe the air freely

I sense you all around
Worthier than ever (found)

This is more than summer dreams
Yes, you brought the sun,
You brought the seeds
Soon we'll see
Our fields growing

To be more than we need
This is more than just a dream
Yes, you brought the ship,
You brought the seas
Soon we will see
Soon you will see
Me ready!

This is more than summer dreams
Yes, you brought the sun,

You brought the seeds
Soon we'll see
Our fields growing
To be more than we need
This is more than just a dream
Yes, you brought the ship,
You brought the seas
Soon we will see
Soon you will see

This is more than we have been
A brand new world is blossoming here
Soon we'll see its fields growing
To be more than we need
This is just what we need -
And much more. Please, imagine
More than we have been
More than we have been

Soon you will see
Me ready!
Me ready!
