"Save"

Hold me close
And never let go
Let's melt the world made of stone

And make it whole
The previous was for one
Hand in hand we are more than our sun

Hold me close to you

Save these lives
Save our lives
Please, save us now
Save us now
From empty hands save me again
Hold me close to you,
Close to you

Emptiness echoing out loud
We need love like a child

We hear more
With our heartbeats close
It can break but make us whole

Hold me close to you

Save these lives
Save our lives
Please, save us now
Save us now
From empty hands save me again
Hold me close to you,
Close to you

You don't have to make it alone
Why not make it together?!
We'll make it I'm sure
Only we can be who we are
In One Love sent from above

Save these lives
Save our lives
Please, save us now
Save us now
In your love's hands heal me again
Hold me close to love,
Close to love

Please, save me now!
Please, save her now!
Save us now!
Please, save us now!
