Meanwhile, somewhere in outer space

Photelic drive stable at this time, ha ha  
U havn't even seen Tommy, have ya? (No)  
A million 2 hundred million kilowatts per second  
Captain  
Yes, Ensign Elm  
I will be taking a weekend furlough down in the..  
What, that's not fast enough, we have 2 get up 2 4  
That's right, it's fast when we fix it  
It has 2 be!  
I'm going 2 the intergalactic Glam Slam down there  
(Furlough, what do U mean? Try it, it's fast)  
What kind of piece of junk is this?  
I'm going 2 the intergalactic carnival  
This shipment's voodoo  
I'm gonna send it.. 8 million before?  
I'm goin' fishin' 'cause that's my style  
(Godamn it, I tried 2 fix this shit)  
Wait, wait a minute, what is this?  
(Huh, I don't know)  
Try a little more  
I don't.. oh my, I better tell the Captain  
(Fuck the Captain)  
Captain?  
I'm getting some strange readings on my vanillascope  
Maybe U should take a listen  
Leave me alone!  
I'm busy hookin' up the world 2 my lastest creation  
The Endorphin Machine (Yep, uh huh)  
The only one of its kind (The only one of its kind, uh  
huh)  
I don't know Captain, U better come check this out  
I have all the best minds in Europe (Every one, yep)  
And soon I'll have all the minds of the world, ha ha ha  
ha (Ha ha ha ha)

But it appears 2 be getting louder and closer  
Huh

Oh my God, it's them!

What up muthafuckas?

{screams}

Stay calm and no one will be hurt!

Watch out!

What he'd say?

What, what, what's that?

Get out of the way

Hey, come here U, get your ass over here

Get your ass on the floor, we takin' this shit over

Get your hand out of your pants

I see ya

Take your hands out of your pants right now

Get'em out of there

Come here, get on the floor

What? Fellas?

Get over here now

I'll whip your ass

Who? What? Where?

Ask him? What? Who?

Get them 2 say'em

Leave me alone! What? What?

U don't have 2 ask us now

Come here, goddern it

Hey, I've had enough

I think we got control now

U will be moved when the NPG come

And take a chunk of your ass!
