(Well this is it Mega Ran, good luck)
What is this? (and Godspeed... take him down)
Yeah, yeah, yeah, yeah
Come bring it, what, yeah

I charge up my cannon cause I know it's 'bout to go
down
Top floor, last level, it's the final showdown
And I ain't leavin 'til I find Doc Wily
Step in the chamber the door closes right behind me
And Wily says "I knew you would come~!
But now you're trapped there's nowhere to run"
I knew it was my last stand, the last chance
My prime directive was to stop Wily's plans
He sat inside a bubble, holdin a controller
The controller controller a robot he called Sophie
I got a message on my transmitter
It's Dr. Light: 'Don't bother with the cannon' Why? 'You
can't hit her'
The weak points? 'Right above where the eyes are'
I took a hit, lost half my lifebar
I can't afford to take another one
Switched to the heatray since I'm a need another gun
I closed one eye, then I aimed steady
Got one shot left 'Are you ready? ' Yeah I'm ready
I squeezed one (PYOOM) missed by a millimeter
No ammo left, how am I supposed to beat her?
Now Wily is lickin his chops, he says
"Game over Mega Ran, this is where it all stops! "
I'm trapped in the corner, he fires from his beam
Nowhere to go, nothin to do but
AHHHHHHHHHHHHHHHHHHHHHH~!

(Dude Ran wake up!)
Yo how long was I out man?
(Dude you were only out for like two minutes but you
were snoring loud as hell)
Really? Heh, psch stop lying, I don't snore
Yo it was this crazy dream man
I was jumpin over spiked pits and stuff man
Had to shoot all these robots and stuff

Yo I had this big gun on my arm yo, it was crazy
It was like that, that game I used to play man
I forget what it's called though man
(Bro, I seriously have no idea what you're talking about)
The blue dude! You know the little blue...
Eh, nevermind man, I'm leaving

You know, although it was a dream
I learned a valuable lesson man
I just... don't remember what it was
But anyway, got some credits to read off to y'all 'fore I
go
