"Nightmares"

Visit "[Nightmares](#)" on MotoLyrics.com

It seems that the problem is very deep

'cause everytime I try to sleep

I have nightmares

thinking about

getting together with you

It seems that the problem is very deep

'cause everytime I try to sleep

I have nightmares

thinking about

getting together with you

Nope nope I wouldn't say so

I would not call it a curse

But what worries me then

Is when I wake up It might be worse

Every time I take my sleeps

Then you come and you give me the creeps

In my nightmares

Thinking about getting together with you

Everytime I fall asleep

Then you fuck her I'd like to creep

In my nightmares

Thinking about getting together with you

Thinking bout getting back together again with you

Nope nope I wouldn't say so

I would not call it a curse

But what worries me then

Is when I wake up It might be worse
