"Nothing Worth Living For"

Visit "[Nothing Worth Living For](#)" on MotoLyrics.com

There's nothing worth living for tonight
Tell me that there's something worth living for tonight
Don't let me down
Don't let me drown

There's nothing worth living for tonight
Tell me that there's something worth living for tonight
Don't let me down
Don't let me drown

The pain is somewhere
Somewhere very close to me
The pain is somewhere
Somewhere very close to me

There's nothing worth living for tonight
Tell me that there's something worth living for tonight
Don't let me down
Don't let me drown

The pain is somewhere
Somewhere very close to me
The pain is somewhere
Somewhere very close to me

There's nothing worth living for tonight
Tell me that there's something worth living for tonight
Don't let me down
Don't let me drown

Don't let me down
Don't let me drown
