### "How many people"

Visit "[How many people](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I've got a plan for a revolution  
I've got a plan to change our lives  
We've got to end this stupid madness  
We've got to put it all outside

In fact I shouldn't even be here  
We shouldn't have it all inside  
We've got to end the stupid madness  
We've got to put it all outside

How many people feel the things we feel?  
How many have slipped inside a soul?  
How many people feel the things we feel?  
How many have slipped inside a soul?

I've got a plan for a revolution  
I've got a plan to change our lives  
We've got to end this stupid madness  
We've got to put it all outside
