"You Would Be"

Visit "[You Would Be](#)" on MotoLyrics.com

You don't have to be ashamed. Of the way that you get played.

I know it's hard enough to think, while your mind is on your drink,
have yourself another dream.

See the hand we're dealt to play. Look at things a different way.

If I'm wrong I'll take the blame. Same old story same old song,
same old life can last too long.

You've got to have fun. You've got to feel love.
You've got to have peace. You've got to think of.
How you can be happy, right where you are,
because if you could be somewhere else, You Would Be.

If you could be anybody else, who would it be?
Well ya can't so don't get up your hope I know it's hard
but soon, you'll see.

So you think you've got it made. If you only knew my frustration.
I'm only tryin' to make you see, there's a better way to be,
don't you think it's time to make that change.

You've got to have fun. You've got to feel love.
You've got to have peace. You've got to think of.
How you can be happy, right where you are,
because if you could be somewhere else, You Would Be.

You've got to have fun. You've got to feel love.
You've got to have peace. You've got to think of.
How you can be satisfied, with who you are,
because if you could be someone else, You Would Be.
