[SL-One]

It's amazing to see how far one would've come as  
people

It's been hard, but

Nobody else is gonna do it for us except us

[SL-One & Kid Kaos]

The fact that we made it this damn far

Without too many cuts and scars

It took years to make dreams come real

Through the blood, sweat and tears

You can't stop me or hold me back

I've come too far for that

We spit raps to make the crowd react

And we love y'all for that

[SL-One]

I've been rhymin ever since I was 13 years old

Always independent, never sellin my soul

But beyond that people think it's glamour and glitz

As if we just make hits, get hoes and be rich

I must've missed that part, I haven't sought at all

My pockets still got lint, can't buy shit at the mall

But above all, life lessons learned, no drama

Gettin rid of bad karma, don't have a baby momma

I wanna teach, many of my dreams got trampled

But I maintain and I still leave my example

With ample intuition, different kind of vision

While you steady talkin I just sit back and listen

[SL-One & Kid Kaos]

The fact that we made it this damn far

Without too many cuts and scars

It took years to make dreams come real

Through the blood, sweat and tears

You can't stop me or hold me back

I've come too far for that

We spit raps to make the crowd react

And we love y'all for that

[SL-One]

See, many don't get a second chance in life  
Yo, I'm still on my first  
Doin all this hard work till my insides hurt  
I'm puttin in work, success is a long way away  
But I do this for the kids that I'ma have one day  
Yeah, I've started early, but it's all in the plans  
Cause the seeds that I'll have gettin what I've never  
had  
Bein dad is a role that I'm ready to play  
But you're never quite prepared when it comes that day  
Cut the ways of the world tryin to hold you down  
Misery loves company, but I ain't stickin around  
See, I've found that in this world if you really wanna last  
You gotta place new trails and never walk the beaten  
path

[SL-One & Kid Kaos]

The fact that we made it this damn far  
Without too many cuts and scars  
It took years to make dreams come real  
Through the blood, sweat and tears  
You can't stop me or hold me back  
I've come too far for that  
We spit raps to make the crowd react  
And we love y'all for that

[SL-One]

I say what I wanna say and I be who I wanna be  
Cause at the end of the day it all comes down to me  
What I see in the mirror is more than a reflection  
It's everything I've been through and all of my  
decisions  
Whether right or wrong, wrong or right, it doesn't  
matter  
For the most part it really just depends on who you  
askin  
Perception of life in the way that I see it  
Is a misconstrued years, so be it  
Don't heat words and take advice, all your life is  
already trife  
No need to make the same mistake twice  
It's all right if you do, though  
Cause we all work on our own turns and I'ma do it too

[SL-One & Kid Kaos]

The fact that we made it this damn far  
Without too many cuts and scars  
It took years to make the dreams come real  
Through the blood, sweat and tears  
You can't stop me or hold me back  
I've come too far for that

We spit raps to make the crowd react  
And we love y'all for that
