

V.i.p. "Sunrise"

Visit "[Sunrise](#)" on MotoLyrics.com

All we need
is dignity to carry on for a while
Another chase at all
within a beggar's hand.
All we had
frozen faces to hide our hidden hell
A sweet caress, forgice and fall
to bother me.

All in all it just sounds funny

Songs to feed
a famine strong enough to tame me
Another face to chage
reminds of it all.
All was said,
another comprehension overflown at last
but that one caress will that do to save me

All in all it just sounds funny
