Jack Blades)

She wakes in the morning

With a smile on her face

She's not sentimental

About the night's embrace

Another lucky day

Lucky night on the town

Man, she got the touch

I say she wears the crown

She say

"I get high when i want to

Don't ya think I need it, too?"

CHORUS

I need a touch

I need a touch of madness

I need a touch

I need a touch of madness

I need a touch

I need a touch of madness

She changes by night

It's a crime in the street

She dazzles the boys
As she moves through the heat
Set out all alone
On a hot summer night
Man, she got the touch
She'll make you sweat all night
She say
"I get wild when I want to
Madness is the thing to do."

CHORUS

I wake in the morning
With a smile on my face
Never sentimental
About my night's embrace
Another lucky day
Lucky night on the town
Now I got the touch
Now I make the rounds
I say
"I get off when I want to
Don't you want to feel it, too?"

CHORUS
