Oriental beauty lady of the night
Enters my van we go to an isolated area
No sign of civilization just her and me, alone
Demonic lust takes over beaten to semi-consciousness
Bound and gagged
I move her into position lying face-down
I spread her thighs her womanhood
I forcefully plunder
Fuck her! Rape her!
Molest the whore!
Pierced nipples severed clitoris feminine circumcision
She will never orgasm again dirty whore!
Sodomize the worthless bitch feel the build up throb
inside
Face her to your erect member uncontrollable
ejaculation on her face splatters
Razor's edge the incision to the larynx is performed
For memories are eternal in a culvert lifeless she lies
