3.5 liter engine squashing bodies splitting vertebrae
crushing skulls
22? blade running at 16, 500 RPMs
Multiple decapitations brutal circumcisions of the
masses no escape
Overpopulated castrated
Lobotomizing the species victims forced to stand
single file
Cutting down the rootless weeds wretched life mowed
into extinction
Unidentifiable remains dismembered hurled
throughout the air
Shredding the flesh blood sprays chaotically a
whirlwind of devastation
Projectiles of bones & human tissue shrapnel of the
damned
Muti9lating the masses a fitting end to a worthless lot
Extinction of the human race now you die!
