My time is ending fastly  
My pain is growing  
You have to hear my prayers  
Evil thoughts are coming  
The midnight train will leave me  
To live in shadows  
Don't walk across my meanings  
There's no return  
The curse is waiting for me  
The sky is crying  
and while we're fighting lonely  
Our honor dies  
So why do we keep on fighting  
Beside the disgrace  
The final comes as lightning

We'll rest in peace  
In front of my eyes the men shout  
I've got no fear  
We hear the bombs cry loud  
Nightmare is here  
Legions of blindmen marching  
No fate no future  
For fucking flag we're fighting  
Our death is right  
Seconds are running faster  
They are my life  
I'm just a slave of violence  
Ready to die  
My cross prove that the olders  
Control the youngers  
Of children they made soldiers  
Of soldiers they made deads
