Pit Passarell - Felipe Machado - Yves Passarell - Cassio
Audi

Sunlight into the end and dark breed a new day
Now we'll prepare our lives to keep eager our faith
Soldiers of metal walking through the frozen souls
Showing the rage to set our flag into this world
So we fight!

DIE

Soldiers that don't fight to win

HATE

Flowing in my veins to destroy

TIME

Time to the battle begin

DEATH

We are it

Fast we ride we're Soldiers of Sunrise

Run and win the world

Strong we fight we're Soldiers of Sunrise

Break the chains of all the time tonight
Masters of reason make mistakes and you take the
blame

The truth was made only to serve who have more age
But the rebellion comes today when we're united
To break the rules and chains that don't let us have
rights

Now we are millions we are united by our hearts
Our sun will always bright when we'll be in the dark
We fight for metal and the sunrise is our sign
To start of the whole end with the force that we have
found
