Picture this night
Picture this in red and gold
Pictures have their own way of talking
It's a lifetime in the making
A heart set for the breaking
And I don't think you oughtta be alone

So what do you got?
What do you care?
I'm sorry I couldn't be there
What are you thinking?
What do you know
When it don't go the way you thought it'd go
What do you say
When it just turns to walk away
It ain't so bad to be fadin' away

It's a long way down, you know, you know
It's harder than you make it look
It's a lifetime in the making
It ain't yours for the taking
And I don't think you oughtta be alone
So what do you got?
What do you care?
I'm sorry I couldn't be there
What are you thinking?
What do you know
When it don't go the way you thought it'd go
What do you say
When it just turns to walk away
It ain't so bad to be fadin' away

It's a long way down, you know, you know
It's harder than you make it look
It's a lifetime in the making
A heart set for the breaking
I don't think you oughtta be alone
