"The Star Left On Me"

Visit "[The Star Left On Me](#)" on MotoLyrics.com

I wish I could turn around time
To when I never knew your name.
Cause then I could be something more,
And not just a crying shame.
When you left me on my own,
I saw a star die in my head.
And when you left me on my own,
I saw a star die above me.

And my love will never be the same.
And my love will never be the same.

And you could never feel the same
About a poor boy like me.
Cause I could never give you things
Like gold or diamond rings.
When you left me on my own,
I saw a star die in my head.
And when you left me on my own,
I saw a star die above me.

And my love will never be the same.
And my love will never be the same.

And my love will never be the same.
And my love will never be the same.

Until you come back. You come back to me.
Until you come back. You come back to me.
