Dead On Arrival (Nordin)

Last night I grabbed a six-pac and sat down to watch
TV

The rerun was quite boring so I switched to channel
three

A police man with a shotgun was what I could see
And he said: Dead on arrival murder of first degree

I saw a girl on a stretcher she had three slugs in her
head

What a treatment of a cute face, to mess it up with lead
I knew that face from somewhere it was a whore
named Marie

And she was dead on arrival murder of first degree

I admit I was embarrassed, I felt a bit of shame
But the way the whore had teased me she had her self
to blame

She could fool around but she should not have fooled
with me

So now she's dead on arrival murder of first degree

All of you people who are listening to this song
Never visit whores cause it will only end up wrong
They will ruin you just like they've ruined me
And you'll be dead on arrival murder of first degree
Dead on arrival murder of first degree
Dead on arrival murder of first degree
Dead on arrival murder of first degree
