1st verse:

Ya got no friends, and ya got no money  
And no one wants to know you  
And no one calls you honey  
And there's nothing going right, and you're running out  
of time

Chorus:

there's only one thing left, that you can do  
that's drive on, drive on, drive on thru.  
There'll always be one car in front of you.

2nd verse:

When the world gets you down and no one comes  
around,  
you're out on your own, and you can never go home  
There aint no fun, now ya got to run.

Chorus:

there's only one thing left, that you can do  
that's drive on, drive on, drive on thru.  
There'll always be one car in front of you.

Chorus repeat: there's only one thing left, that you can  
do  
that's drive on, drive on, drive on thru.  
There'll always be one car in front of you
