[Music and lyrics: De Feis]

The day is over, the setting of the sun  
My wounds are many, evening has begun  
A mist is falling before my eyes  
My soul is free now to shadow forth and rise

To tread the paths that none has seen  
The Mystic Rose, the Empyrean  
Gone forever my days of valor  
I will meet you in the sun

[Chorus:]

I will stay tonight in your perfect mansions  
Where the silver horses run  
I will rest my head in fields of glory once more  
In the palace of the sky

The gods are mighty, children of the brave  
Lord Poseidon, a message on the waves  
The age is passing, the white ship rides  
A voice is calling way beyond the skies

Tell her that you saw me stand (proud)  
And you look into my eyes, (no fear was waiting)  
Tell her that her name was on my lips when I died  
I will meet her in the sun

[Chorus]

Death makes us innocent, all truths remain  
The white ship is summoning, ride the winds of the  
sky!!!

[Chorus]

We rise above the world and we soar above the waves  
With the last of all my breath I slew the best of seven  
wraiths  
Fortune is now waiting like a vulture in the sky  
Tears of blood are falling as the god of winter dies  
And now we ride... silver horses of night

(Remember)... I'll meet you again in the sun  
On holy, holy ground... We ride..
