Here I am again
Going to cure the common cold
Eat away hunger and
Get my movie soul and a

Gonna teach the world to sing
Give 'em all a hand
Solve there problems and
Gonna take a stand

I look around, come back down
Try to rearrange it once again
You hold your own, nervous to be strong
You got it and you don't know what it is

Once you gain, time after time it's the same ol' wrong
Change and you change it's the same ol' song

I'm bothered by the fact, I cannot take it back
It goes on record and multiplies it bad and a
I gotta break it down to it's smallest part
Put it back together and call it art

I look around, come back down
Try to rearrange it once again
You hold your own nervous to be strong
You got it and you don't know what it is

Once you gain, time after time it's the same ol' wrong
Change and you change it's the same ol' song

Once you gain, time after time it's the same ol' wrong
Change and you change it's the same ol' song

Once you gain

Once you gain, time after time it's the same ol' wrong
You change and you change it's the same ol' song

Time after time it's the same ol' wrong
Change and you change it's the same ol' song

Time after time it's the same ol' wrong
You change and you change
You change and you change
You change and you change
You change and you change
You change and you change
You change and you change
One new gain
