It all started up when I was fighting with a cop.
At least I could stop. I guess I couldn't stop.
Hey, I'm in the voice now 'n'
you have only one choice.
I will make you choose
my, my, my, my, my stooooory.

No, I'm not fading,
not even hesitating.
Still I'm gonna say,
if you would say that this is law 'n'
you better obey me,
I'm gonna teach you.

Shut up! Or else I gonna spit you to the face.
Shut up! Or else I gonna treat you like a cop.
Kick you to the head, as long as you are dead.
My dick says "swing",
when you hit me with that black thing. Go.

Making love is a waste of the time.

We ain't here for any trouble,
can you break a bubble bam, bam, zidili.
You were so dumb that wouldn't
go with the flow home, when I told.
Let me make you to be welcome to
the world where is no bad,
there is no thing called cop,
who don't give a fuck about
nothing else but his own fucking duties.

That thing just took me down.
