It feels like the end of time
Like something bad is coming
You've been living in a world of lies
Your see through walls are falling
It's getting hard to accept that I'm losing you
I watch you as you sleep
Your nightmares break the silence
I can tell that you're in too deep
Got your mind down to a science
And everytime that I touch you,
I'm losing you
You're the eve of my destruction
In the garden of fears
Why am I devastated?
You threw it all away
Now who's the one who's lost and lonely?
I gotta break away from you
Who will pay for all the things you've done
I'm not the only one
You're out of control inside
I don't need X-ray vision
To see all the desperate signs
You made your heart a prison
I took it all out of fear of losing you
In the valley of deception
There is a river of tears
Why am I devastated?
You threw it all away
Now who's the one who's lost and lonely?
I gotta break away from you
Who will pay for all the things you've done
I'm not the only one
So many nights
So many fights
So many days
Too easy to erase
Why am I devastated?
You threw it all away
Now who's the one who's lost and lonely?
I gotta break away from you
Who will pay for all the things you've done

I'm not the only one
