Our world

Our world

Our world

Our world

So have another drink

And wash away the guilt

Nobody here believes you anyway

Do you have the answers

For the world

For the world

Endless questions no belief

Endless questions no belief

They were sent to find me (what for)

They were sent to take me back

No one's safe when I'm here

Run for cover so they tell you all

They were sent to find me (what for)

They were sent to take me back

No one's safe when I'm here

Run for cover so they tell you all

These cuts feel so deep

Bleed away deceit

Nobody here believes me anyway

Do I have the answers

For myself

For myself

Endless questions no belief

Endless questions no belief

They were sent to find me (what for)

They were sent to take me back

No one's safe when I'm here

Run for cover so they tell you all

They were sent to find me (what for)

They were sent to take me back

No one's safe when I'm here

Run for cover so they tell you all

Bless us father the world has sinned

Bless us father the world has sinned

Bless us father the world has sinned

Bless us father the world is a sin

The end approaches

An unread chapter in the book of life

To bleach the sky with fairy tales

And sugar coat a happy ending

A test of faith

A test of what will be

A test of faith

A test of destiny

A test of faith

A test of what will be

A test of faith

A test of destiny

Bless us father the world has sinned

Bless us father the world has sinned

Bless us father the world has sinned

Bless us father the world is a sin

They were sent to find me (what for)

They were sent to take me back

No one's safe when I'm here

Run for cover so they tell you all

They were sent to find me (what for)

They were sent to take me back

They won't take me

Never f\*\*\*in take me

Our world

Our world

Our world

Our world
