You knew ma destiny,
Before I was concieved,
Brought out the best in me
And Lord I wanna thank you,
A diamond in the rough,
You looked beyond my stuff
And saw potential that
Nobody else could ever see

Bridge:
People let me down,
Player Haters all around,
So tell me how you like me now,
I survived my wilderness
I still can't believe
That you chose me.

Chorus:
I can't believe you chose me
I can't believe you loved me
Even though im not worthy
I can't believe you saw me
I can't believe you chose me
Lord im thankful that you chose me

So many years I felt,
I just can't help myself,
And used excuses just like
Moses at the burning bush,
Go set my people free,
Thats what you said to me,
And as you go just like the
Lepers I'll deliever thee.

Bridge:
People let me down,
Player Haters all around,
So tell me how you like me now,
I survived my wilderness
I still can't believe
That you chose me.

Chorus:

I can't believe you chose me
I can't believe you loved me
Even though im not worthy
I can't believe you saw me
I can't believe you chose me
Lord im thankful that you chose me
