She's seventeen by only a day  
Sass magazine whatever they say

You don't believe her  
You can't believe her  
You won't believe her now

Bad wasted boy  
He's mad at the world  
Sings angry stupid songs  
And rakes in the dough

You don't believe him  
You can't believe him  
You won't believe him now

Meet cappicheek  
It's driving her wild  
Sweet little buttercup  
I'll eat you right up

You don't believe them  
You can't believe them  
You won't believe them now

All that she wants  
Is life on a cloud  
All that she'll ever get  
Is life in a cloud

You don't believe her  
You can't believe her  
You won't believe her now
