

Ocean Blue, The "Crash"

Your lovely daydreams
From the back of youth
You metamorphosed
And then off they flew

Remember me
When you fall
Remember me
When you crash

You're soon tomorrow
In front of you
Holds lovely daydreams
From the background view

Remember me
When you fall
Remember me
When you, when you

You're soon tomorrow
In front of you
You metamorphosed
And then off you flew

Remember me
When you
Remember me
When you crash

Remember me
When you fall
Remember me
When you crash
When you crash
