Troopers of the Thermo-State  
Memories filled with post war hate  
Combat ready, wait for war  
Life and peace, endless bore

Orders from a genetic brain  
Forward to the killing game  
Trigger happy death crazied will  
Blatant violence breed to kill

Pray for war  
Pray for war

Weapons stripped greased and clean

Try to stop this war machine  
Searching through the endless maze  
Wading in with guns ablaze

Demented minds seek to reign  
Blood and guts all the gain  
No remorse all must fall  
Do or die the final call

Pray for war  
Pray for war  
Pray for war  
Pray for war
