Waiting for the day to die
Destruction of the race
Three hundred million vapourised
The facts we have to face
Malfunction from the microchips
Countdown has begun
Computers start the war of death
Technology has won

Scarred for life

Continents formed by time itself

Flattened in a day
Transfigured humans stunned by war
Blunder in a daze
Bacteria brings on pestilence
Spread the evil spawn
Rotting flesh and boiling blood
Bodies ripped and torn

Scarred for life
Manmade power
