Verse:

There are things in my life
That have went by so fast
Things just never happen to make sense
Either love nor hate

Chorus:

Life slow down so I can understand
What is happening to cause this confusion
I know that god is looking out for me
He has chosen the right path for me

Verse:

I need help from my friends
To keep me in this society
Without them what would I be
Probably a nobody with nothing to do
But beg and plead

Chorus:

Slow down so I can understand
