"This Is Love"

Visit "[This Is Love](#)" on MotoLyrics.com

Have a feeling that I know
Some would say it's like a vibration
And this feeling that I know
Some would say it's quite a sensation

It's like magic, like something in the air
Let me tell you how I feel it everywhere

Have a feeling I will share
If you'll only take the time to show me
And with this feeling that I'll share
Will you learn to give yourself completely

It's like magic it's like something in the air
Oh how I feel it everywhere

(Chorus)
This is love, this is love, this is more than I can take
This is love, this is love, this is more than I can take
Can you feel it in your heart
And do you have a place to start
This is love

And as time passes slowly by
Some will watch and see love die
But if the feeling, that you hold in your heart
Is so strong that you'll never let go

(Repeat chorus)
