Do you believe in justice
Or so-called co-existence?
What's wrong with politicians?
They give their best for you
The economic's growin'
Some tiny holes above
A little radiation
Wake up this planet fades
You are not watching, you're part of the show
You lost the first prize a long time ago.
WAR - somebody's always starts again
HATE - we're getting closer to the end
As time goes by
(We never seem to beat the ones
Who say we can't be free)
As time goes by.
Do you believe in money?
Do you believe in guns?
Do you trust the press, babe?
You'd better judge yourself.
You are not watching, you're part of the show

You lost the first prize a long time ago.

WAR - somebody's always starts again

HATE - we're getting closer to the end

As time goes by

(We never seem to beat the ones

Who say we can't be free)

As time goes by.

The missiles are launching, the tanks are rollin'

The guns are blazing, the sky turns black!

WAR - somebody's always starts again

HATE - we're getting closer to the end

As time goes by

(We never seem to beat the ones

Who say we can't be free)

As time goes by.

As time goes by

We never seem to beat the ones

Who say we can't be free

As time goes by

We're getting closer to the end of our ability

As time goes by

Is there a place to run for shelter in a high tech war

As time goes by

Can you believe and trust in God

To help you from above.

As time goes by

Is there a place to run for shelter in a high tech war

As time goes by

Can you believe and trust in God

To help you from above
