My life, not yours

Is that alright no fight

I don't wanna quit it

No way, is that okay

No don't you dare, don't you dare

to touch it with your fingers

You sneak around, pull me down

Gimme no, gimme no, gimme no more bullshit

I know there's something goin' on

You better leave my life alone

You gotta take it a matter of fact. Now step aside

We are brothers in rock we won't let go

We got our music and we got our soul

And with the sisters of rock we can change the world

If we try

Cool down, now move around

Someday, maybe you will understand it

My way, okay feels so good, feels so good, feels so good

To be with all my good friends

Don't you realize you talk too much

I got an easy way of life, don't touch
You gotta face it as a matter of fact no step aside.
We are brothers in rock we won't let go
We got our music and we got our soul
And with the sisters of rock we can change the world
If we try
We are brothers in rock we won't let go
We got our music and we got our soul
And with the sisters of rock we can change the world
If we try
In the concrete jungle we play rock'n'roll
To set us free, to lose control
In the concrete jungle we can break the walls
That hold us down and keep us small.
Don't you realize you talk too much
I got an easy way of life, don't touch
You gotta face it as a matter of fact no step aside.
We are brothers in rock we won't let go
We got our music and we got our soul
And with the sisters of rock we can change the world
If we try
We are brothers in rock we won't let go
We got our music and we got our soul
And with the sisters of rock we can change the world
If we try
