I need a new direction  
Another thought to serve me right  
My mind has got an infection  
And there's nothing that seems to help  
I need to grow an island somewhere inside my head  
Where nothing can disturb me,  
Where I am free, where I'm forever set  
Maybe it's not important  
If we are dead or alive.  
I never ever wanna listen to the sirens  
I'm alive, still alive.  
Who says: "We are not guilty"  
I say: "We never know the way it goes"  
Changes - all around me, all inside my head  
Changes - changing face, still remaining mad.  
Changes - an all day routine.  
Hard to enjoy the good times,  
Decay is what I feel  
God, it's makin' me porous, vanish in haze,  
I wonder, wonder if I'm real.  
Newflash - under the new regulations

Non-conformity will be punished by law.

Relax - and don't forget to unplug your TV set!

Sigh no more!

For you, you are not guilty,

No, no, you're not responsible at all.

Changes - all around me, all inside my head

Changes - changing face, still remaining mad.

Changes - an all day routine.

Changes - all around me, all inside my head

Changes - changing face, still remaining mad.

Changes - changing systems, still insane.

Changes - but the madness will remain.

Who is the man who says I'm never gonna die?

It's a lie, it's a lie!

And who is the man who says, I never have to sigh?

It's a lie, it's a lie!

Oppression, resistance

We will never change our way,

The island in my mind is growin'

More and more, day after day.

Changes - all around me now, all inside me now

Changes - wanna cry no more, sigh no more
