The world's desperated with irony, hunger and
corruption

The eastern world and the africans, too

Are going to repeat the history of all wars

And our industry supplied them with arms

Everybody knows but nobody can do anything against
it

The fall of society is on the make

Well sometimes, sometimes I try to draw up a list

I try to find out what they have done

I thought of honorable murderers you know

Like Jonah's hand might wrap around us

And anytime, everywhere in the world ...

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma
Ray,

Made of your existence

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma
Ray,

Money and our failing

I've waited for... to fire gamma ray!

Without body I could fly around the world

Destroying arms, destroying rockets

Mix all complexions of the whole human race

We all would turn to shallow people

Everybody, everywhere in the whole world

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma
Ray,

Made of your existence

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma
Ray,

Money and our failing

I've waited for... to fire gamma ray!

Without body I could fly around the world

Destroying arms, destroying rockets

Mix all complexions of the whole human race

We all would turn to shallow people

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma
Ray,

Made of your existence

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma
Ray,

Money and our failing

I've waited for... to fire gamma ray
