Where will I go now it's all over

Where will I be now all is said and done

Here comes the time, prepare for justice

Seems like my final journey has begun

Riding on the wind, there's only one place left to go

Take me to my afterlife, high up or down below

Heaven or Hell - where do we go when we are leaving

Heaven or Hell - whatever comes to set us free

Heaven or Hell - I've gone a long way and I see there's
no wishing well

The choice is made, it's heaven or hell

I'm not the one who was expected

So I'll return and be from heaven sent

I'm gonna get myself elected

And now I wanna be the president - "Viva el Presidente"

Master of the damned I'll be the savior of you all

Take me as a holy god to save you from the fall

Heaven or Hell - where is my final destination

Heaven or Hell - whatever comes to set us free

Heaven or Hell - we've gone a long way and we'll see
there is no wishing well

The choice is made, it's heaven or hell

Master of the damned, I'll be the savior of you all

I'm your revelation I'm a walking miracle

Heaven or Hell - what is our final destination

Heaven or Hell - where do we go from here

Heaven or Hell - we've gone a long way and we see
there is no wishing well

The choice is made, it's heaven or hell

Heaven or hell

It's heaven or hell

There's no wishing well

It's heaven or hell
