We're the masters of the wind

We're demons left in howl

we're the undefeated warriors

we have heard the call

We're the keepers and the leaders

of the only thing we love

we're the saviours

and protectors from above

In your sky there is no limit

and masters we have none

heavy metal is the only one

'cause its heavy metal universe

an it's never going down

flying 'cross the universe

we're heavy metal bound

we're heavy metal bound

With a burning hot desire

like a supersonic blast

we have come to show the world

that we have come to last

There ain't no way to stop us

and you'll never kill our pride
'cause it's not only music
it's a chosen way of life
And our world has got no borders
and in union we all stand
'cause heavy metal is our promised land
'cause it's a heavy metal universe
with a heavy metal sound
masters of the thunder
shake you to the ground
It's a heavy metal bomber
and it's never going down
flying 'cross the universe
we're heavy metal bound
we're heavy metal bound
See my hands held to the sky
let me rock you 'till forever
raise your voice we're soaring high
swear allegiance now or never
burning up we build a flame
as we speak the oath together
metal is our way forever...
... way forevermore
And our world has got no borders
and in union we all stand

'cause heavy metal is our promised land

'cause it's a heavy metal universe

with a heavy metal sound

masters of the thunder

shake you to the ground

it's a heavy metal bomber

and it's never going down

flying 'cross the universe

we're heavy metal bound

we're heavy metal bound
