For no one to see for no one to hear

They fight for our souls without any fear

When injustice done they open their gates

To maintain balance between good and bad

And as the winds of freedom blow they vanish into
haze

The mighty shadow turns away and wisdom conquers
hate

The guardians of Mankind

Are losin' their faith

'Cause malice and falseness

Spread over the human race

If guardians of mankind

Won't shelter our souls

The rulers of darkness

Will soon gain control

Don't try to deceive them don't try to play false

'Cause losing their favour will be the end of shelter

And as the winds of freedom blow they vanish into
haze

The mighty shadow turns away and wisdom conquers
hate

The guardians of Mankind

Are losin' their faith
'Cause malice and falseness
Spread over the human race
If guardians of mankind
Won't shelter our souls
The rulers of darkness
Will soon gain control

And as the winds of freedom blow they vanish into
haze

The mighty shadow turns away and wisdom conquers
hate

The guardians of Mankind
Are losin' their faith
'Cause malice and falseness
Spread over the human race
Guardians of Mankind
Are losin' their faith
'Cause malice and falseness
Spread over the human race
If guardians of mankind
Won't shelter our souls
The rulers of darkness
Will soon gain control
