"Time To Break Free"

Visit "[Time To Break Free](#)" on MotoLyrics.com

Where will you be tomorrow?

Really I don't care

I have seen the future, rising everywhere

Look into the mirror, tell me what you see

Piece by piece you'll vanish

Until you disappear!

Now I'm doing what I say

No more fooling anyway

Beyond this hell, there is a better life to lead

You're all undone, emotionless

It's not the way for me

Now I know there's a better way

Let my heart ride out for a brighter day

Now it's time to breathe in the open air

With a mind so free, anyway

It's time for a change...

It's time to break free!

Had enough of fooling, had enough of lies

Hypocrisy, intriguing, right before my eyes

Had enough of hound dogs, barking all the time

I agree with Elvis, you ain't no friend of mine

Apart from this there is a better life I know

You're all undone, emotionless

It's time for me to go

Now I know there's a better way

Let my heart ride out for a brighter day

Now it's time to breathe in the open air

With a mind so free, anyway

It's time for a change...

It's time to break free!

Now I know there's a better way

Let my heart fly free towards a better day

Now it's time to breathe, it's the only way,

let my mind ride out, anyway...

Now I know, there's a better way

Let my heart ride out for a better day

Now it's time to breathe in the open air

With a mind so free, anyway

It's time to break free!

It's time to be me, FREE
